

LED TRANSPARENT PANEL LIGHT BOLSLPAN

DESCRIPTION

Blue Ocean's BOLSLPAN LED Transparent Panel Light is a specially designed modern and stylish double side transparent model producing both upside and downside light. Constructed of aluminum housing, it features simple and convenient installation, and super solid structure guarantees no sack or bend when suspended. Utilizing superior quality LED chips and opal or micro prismatic lens with excellent surface treatment, this Transparent Panel Light creates harmonious and mood pleasing light with high energy efficiency, accurate colour rendering, great colour consistency and minimum luminous depreciation. Professional heatsink maximizes the heat transformation inside the fixture to protect the LED source to even prolong the lifespan. Popular applications: for new construction or replacement for traditional fluorescent troffer fixtures with suspended mounting installation, in offices, meeting rooms, retail stores, hotels, schools, hospitals, and other commercial applications.

IP RATING

40
